

Level 2 Certificate in **Common Health Conditions**

Key info

Type of qualification: QCF

Credit Value: 16

Course overview

In the UK today there are a large number of people living with a common health condition. These conditions have varying effects upon individuals, but they all require continual management to minimise the effect they have on an individual's day to day life.

By completing this course you will not only gain an awareness of the signs, symptoms and treatments available for a variety of common health conditions, but you will also learn how to care for individuals and enable them to manage, monitor and control their condition.

Level 2 Certificate in **Common Health Conditions**

Who is suitable?

This qualification is ideal for anyone already working in, or intending to work in, the healthcare sector. It is also suitable for anyone who wishes to further understand a variety of common health conditions they may encounter among people in their care. Carrying out this course demonstrates a willingness to understand how to care for individuals who are living with the effects of common health conditions.
